OVERVIEW

Durable polypropylene bristles with a galvanized steel spine protect panels and roof without damage. Each 1m section connects with twist-lock ends for fast, tool-free installation, no clips or fasteners required. Cable ties optional for a neat finish.

KEY FEATURES

Blocks Nesting Birds: Prevents birds from nesting under solar panel arrays.

Tough & Durable: Poly bristles + galvanized spine = long-lasting.

Quick Install: 1m twist-lock section, no clips needed.

Low-Profile Look: Blends seamlessly with roofline.

Flexible Fit: Wraps corners and curves with ease.

No Roof Damage: Installs safely, warranty stays intact.
